- $\cdot\,$  This table shows the dose distribution per quarter, collected as of 14 April 2025 for the past one year.
- The data are given as a flash report of the dose distribution among workers engaged in decontamination and related work in the fourth quarter (October – December of 2024) as well as additional data for the period from the first quarter of 2024 to the third quarter of 2024 (January 2024 to September 2024) which were added after the flash data collection day (14 January 2025).
